

Profit Solutions Group, Inc.

Advisory Services Offerings

Advisory Services Offering

- Profit Solutions Group, Inc. has expanded our current accounts receivable auditing capabilities to include advisory services for Consumer Products and the Retail Industry
- Our company has secured resources from industry and top flight consulting firms to supplement and provide a more complete service to our current and future clients
- These offerings include:
 - Process reviews across the supply chain, accounts receivable activities, master data management, and product development
 - Implementation of RFID functionality including
 - Supply chain integration
 - Inventory Forecasting, Allocation, and Replenishment
 - Omni-channel planning and roadmap
 - Security and shortage control integration

Our Philosophy

- Team members are seasoned professionals with experience as C-level industry executives or Principals from premier consulting firms
- Costs are reasonable and not leveraged to support staff and unwarranted overhead
- Advisory recommendations are actionable and well communicated to those who perform the work
- Logical organizational review and structural recommendations integral to advice
- Charges for initial project definition and scope are on “out of pocket” expense only basis
